

Vishal Masule

Mumbai, India | 9326168716 | [Gmail](#) | [LinkedIn](#) | [Portfolio](#) | [Github](#) .

Full Stack Software Developer with an MCA, skilled in React.js, Java, Spring Boot, Hibernate, Python, REST APIs, MySQL, DynamoDB, AWS, and Docker. AWS and Oracle Cloud certified with hands-on experience in application development, cloud deployment, database integration, OOP, DBMS, DSA, and software engineering.

Work Experience

1) AWS Trainee at Magicbus

5/6/26 - 11/8/26

Completed 3-month training with Magic Bus, gaining knowledge of AWS and cloud-related technologies.

Key Highlights:

- ▶ Improved teamwork and collaboration skills through group exercises and project-based learning
- ▶ Enhanced problem-solving skills and ability to design efficient cloud-based solutions for real-world scenarios
- ▶ Gained hands-on experience through practical labs and project-based learning, applying cloud concepts to real-world scenarios
- ▶ Built a strong foundation in cloud computing best practices, including infrastructure management, security, Cost management

PROJECTS

1) Java Full Stack Web Application

- Built responsive web applications using React.js with modular and reusable frontend architecture.
- Developed backend applications using Spring Boot and designed **scalable RESTful APIs**.
- Implemented **input validation, error handling, middleware, and comprehensive logging** for reliable APIs.
- Integrated MySQL with **Hibernate ORM** for efficient database operations and entity management.
- Implemented **JWT-based authentication and authorization** following security best practices.

2) Cloudvault-Cloud Storage application | [GITHUB](#)

- Developed a secure cloud-based **file storage application** using React.js and Python.
- Built features for **file upload, storage, and file management**.
- Integrated **AWS S3** for scalable object storage.
- Configured **Amazon CloudFront** for fast and secure content delivery.
- Used **Amazon Route 53** for custom domain and DNS management.
- Implemented **Amazon SNS** alerts for storage usage and quota notifications.
- Configured **storage quotas** to manage user storage limits.
- Developed a **real-time storage usage dashboard** for monitoring storage consumption.
- Integrated Amazon DynamoDB for storage quota tracking and usage analytics.**

Education

Master of Computer Application

09/26 - 9/28

Sardar Patel Institute of Technology, Andheri

Bachelor's of Computer Science

7/23 - 7/26

Dspms's Kv Pendharkar College, Dombivli

Technical Skills

Frontend: HTML5, CSS3, JavaScript, React.js

Backend: Java, Spring Boot, Hibernate, REST APIs, JUnit5, Python

Database: MySQL, Amazon DynamoDB

Deployment / DevOps: AWS, Docker, Git, GitHub

Certifications

- AWS Certified Cloud Practitioner | [VERIFY](#)
- Oracle Cloud Infrastructure Certified Foundations Associate | [VERIFY](#)
- Google AI Essentials | [VERIFY](#)
- Core Python by Keerti Eduaction
